

DeFi platform with
leading functionality on
the market

Our benefits

Total liquidity in Exon Swap

Innovational approach to DeFi ecosystem
– every user, that granted liquidity gets high profit from the cryptocurrency exchange in the pool

Personal liquidity in Exon Swap

Liquidity providers in Exon Swap earn 100% with the fee on the conducted exchange with their personal referral link on liquidity. You can increase the number of trades with assets that were blocked before and earn more on fees.

You can get 100% on the fees if your liquidity is enough for the exchange. If your liquidity is not enough, then the exchange is conducted in the common pool and the fee is distributed among all the liquidity providers according to their share in the pool.

The process of generating additional profit in the form of management tokens by Exon Center users for providing liquidity in Exon Swap.

The more liquidity provided, the more EXON tokens you receive. Liquidity providers can withdraw the provided assets at any time.

Exon Farming

Exon farming referral program

By inviting new users with the referral program to Exon Center the participant earns tokens from their farming profit. The more involved partners the higher the income. Now the user does not depend on the cryptocurrency rise or fall - they earn 24/7.
